

video\_get\_adjust\_int

```
graph LR; A[video_get_adjust_int] --> B[vlc.libvlc_video_get_adjust_int]
```

A diagram showing a mapping from a function name to its implementation. On the left, a gray rectangular box contains the text 'video\_get\_adjust\_int'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'vlc.libvlc\_video\_get\_adjust\_int'.
