

audio_get_mute

```
graph LR; A[audio_get_mute] --> B[vlc.libvlc_audio_get_mute]
```

A diagram showing a mapping from a function name to its implementation. On the left, a gray rectangular box contains the text 'audio_get_mute'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'vlc.libvlc_audio_get_mute'. Both boxes have a black border.
