

get_full_title_descriptions

```
graph LR; A[get_full_title_descriptions] --> B["vlc.libvlc_media_player_get_full_title_descriptions"]
```

A diagram showing a mapping from a function name to its full path. On the left, a gray rectangular box contains the text 'get_full_title_descriptions'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'vlc.libvlc_media_player_get_full_title_descriptions'.
